To promote summer reading, we are implementing D.E.A.R (Drop Everything and Read). All children will be engaged in reading, focus groups, story-time and activities to keep kids reading all summer.

NASA's Summer of Innovation Project has also been implemented in our program. The project provides hands-on learning opportunities for youth through NASA-unique science, technology, engineering and mathematics educational activities.

Campers 8-9years old will be engaged in a variety of science, engineering, math and aerospace activities to stimulate learning through the SEMAA (science, engineering, math, aerospace academy) program administered by Morgan State University.
